Dear Harold,

A social and interesting story but Variety News. Of course, it gives support to Jame Seasonal Award Concept.

The A.I.B. has done bad stuff but The Zapruder film showing, where are great. The Lane position — taken recently — of arresting Usual allegation is logical. Perhaps, Congress will follow these leads.

## Two Oswalds?

Photographs released by the New York Review of Books magazine which claims they were made by the Central Intelligence Agency tend to back up the theory that a man who looked like Oswald spent some time prior to the Kennedy assassination appearing in various areas and identifying himself as Lee Harvey Oswald. The top shows a man taken outside the Soviet Embassy in Mexico City in 1963 who identified himself as Lee Harvey Oswald. Below the real Oswald is seen after his arrest in Dallas, also in 1963.
